

100A CURRENT HALL SENSOR

Le-H100

- **Supply voltage:** 5 ... 24V DC
- **Measuring range:** 0 ... 100A AC / DC
- **Bandwidth:** 120 kHz
- **Analog output. Sensitivity:** 20 mV / A
- **Insulation voltage:** 3000V
- **Based on Allegro IC ACS756 / ACS770**
- **50 mm x 40 mm**

The module can measure current of any polarity. The output signal in the absence of current is 2.5V.
